## Artistic metalworking

Specialized in artistic metalworks, the atelier continues an aesthetic tradition and know-how that has created the worldwide reputation of French style. Materials such as bronze, steel, nickel and even titanium are treated with mastery in the creations for interior design.

Among his references are big names of architecture located in the heart of Paris and abroad.

Innovation: he recently developed a—  
new process following a client's request:  
metal  
flooring & patinas, textures.

## Ceramic Creations

Creating ceramics is, for Claire Fréchet, a way of life rather than, simply, a technique. Her searching soul, a certain rigor and her joyful complicity with the elements paved her way to a singular artistic path.

Claire Fréchet also proposes made-to-measure creations within the scope of her collections such as Spaceberry, Aurora Mineralis, Meteors and Albanegra.

# Fabienne Fabre

## Unique Wall Creation

Company created by art designer Fabienne Fabre who shares with you her taste for unique atmospheres, developed around the natural beauty of materials.

A decoration made in France, elegant, refined with luxurious and sophisticated creations, worked in transparency of colors and variations of light.

Lime, concrete, natural and metallic pigments intrude with force or softness into its universes.

Unique Wall Creation, with its unique process, creates monumental canvases in one piece or wallpapers. The works are light and flexible, they can marry curved walls, wavy, even with a depth and sometimes very thick texture combination.

These canvases are fixed to the walls like a mounted wallpaper. Fabienne Fabre collaborates, for example with prestigious houses as Louis Vuitton, Berluti, Rolls Royce, around the world.

We can work on 2 widths of wallpaper:- Option 1: 1m W x 8,85 m L - Option 2: 2.38m W x 8,85 m L Or on support of Canvas max. 3,4 m x 8,85 m as standard dimensions

# Atelier Saint Didier

## Stained glass

The Artist has a unique skill, being recognized as Meilleur Ouvrier de France. The Atelier has worked in traditional and modern projects worldwide since 1984, producing stained glass and glass painting for interior design and decoration.

With the use of antique glass almost exclusively and traditional painting techniques, such as grisaille and enamels, they produce all sorts of figurines or ornamental designs. In addition, the artist is able to do the copy of antique pieces and their restoration.

## Olfactory branding

Expert and focusing on the marketing of scents, we design and create unique and dedicated fragrances as an esthetic scent signature for brand strategically concepts.

We offer a global synergy among multiple scented supports, of which we control the production, in accordance with the fragrance created (air diffusion, candles, body sprays, cosmetic products, paper, stickers, USB keys, etc.).

Finally, through scent marketing we can develop a line of products under your own brand: perfumes, cosmetics, candles (amenities).

Our international references: Mercedes Benz, Le Royal Hôtel, Paul Bocuse, Airport Montpellier Méditerranée, L'arbre Blanc from Fujimoto.

# Ulgador

## Wallpapers & Wall panels

For over 20 years, the artist has been creating a wide collection of wallpapers, panoramic panels, mirrors and objects under his trademark. The creations are made using a unique procedure of oxidation and corrosion of golden, copper, silver and aluminum leaves.

Ulgador has collaborated with Cartier, Paul & Joe, Vuitton, Piaget, among others.

# Arca-Ebenisterie

## Wood Works

A studio with multiple facets: furniture creation and research, prototyping, micro and limited series, as well as custom made pieces.

The «custom made» is not limited to the simple dimensions of furniture, and to respond to the requests of individuals and collectors we integrate a design cell in our workshop.

The latter, allows us to turn words into images and to translate ideas into the most ambitious interior design projects.

Innovation :

- The "Bois larmé"
  - The "Bois thermoformable"
  - The "WooWood"
  - The "Air wood" is a material that needed 10 years of research and development.
- It allows the production of panels with a layer of veneer on it, with the specificity of going from a flat panel to a 3D form or pattern, and back to normal.

# EKCELI

## Textile design and Embroidery

The Ekceli workshop develops high-end and luxurious textile design and embroidery.

The two main activities are tailor-made services and live real personalization for Fashion, Interior Design and Art.

The workshop is specialized in gold embroidery called Cannelille. The embroidery is realised by the needle and the hook Lunéville. The artisanal ennoblings sublimate the support: dyeing, digital printing, pyrography, felting.

The creations are made by various materials such as textile, leather, fur, metal weave, plastic film, shaped paper, etc. Experimentation and research for new aesthetic renderings are essential in the creative process. Then, we can regularly propose new material effects and respond to your universe.

The workshop regularly makes customizations in front of the customer for Hermès, Bon Marché, Galeries Lafayette....
